EXAMINER'S AMENDMENT

Election/Restrictions

1. This application is in condition for allowance except for the presence of claims 1-31, 49, and 50, directed to Group II and other species, non-elected without traverse. Accordingly, claims 1-31, 49, and 50 have been cancelled.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Hanley on 12/19/06. The application has been amended as follows:

Please cancel claims 1-31, 49 and 50.

The following is an examiner's statement of reasons for allowance: Prior art discloses many devices for delivering snare catheters, such as US Patent No. 6,071,233 to Ishikawa, which has a snare catheter attached to the distal end of an endoscope by a guide member. Prior art discloses devices with a guide for directing an auxiliary tool in a direction away from a primary catheter, such as US Patent No. 6,165,195 to Wilson et al. that discloses a guide wire guide (39) for a bifurcated stent system, and US Patent No. 6,280,432 to Turovsky et al. that includes an angled guide for a cannula. USPAP No. 2005/0234297 discloses a swiveling guide on an endoscope, but does not qualify as prior art. Therefore, prior art fails to disclose or even suggest a system including a first elongate member that receives a second elongate member within its lumen, the second elongate member including a swiveling

guide pivotally attached to it, and a snare catheter extending through the lumen of the swiveling guide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
